

PHYSICS BEYOND THE STANDARD MODEL KNOCKS AT THE DOOR

High Energy Physics Summer School

9 - 16 September 2007, Svit, Slovakia

- Supersymmetry as new type of symmetry in nature, superfields
- The Minimal Supersymmetric Standard Model
- New Physics and LHC
- Infrared divergencies - to include some technicalities
- Don't worry, the Standard Model will be reviewed too

The school is organised with the support from ESF (Project CEPOŠ).
